PRODUCT MANAGER (TECHNICAL) | DELIVERY-STRONG | FOUNDER-BUILDER

Summary

Product-minded PM with a hands-on engineering background (Full-Stack). Shipped internal tools and e-commerce products on weekly to biweekly release cycles, running parallel workstreams with cross-functional teams. Strong in discovery, roadmap prioritization, and agile delivery, with calm stakeholder communication.

Experience

Founder | eos archive | Oct 2022 – Present
• Own product direction, roadmap, and prioritization for eosarchive.app
• Run continuous discovery through user conversations and feedback intake
• Develop and ship end-to-end features (React/Next.js, Supabase)
• Built traction with 300+ newsletter subscribers and 5k+ followers

Project Manager | Lipsia Digital GmbH, Leipzig | Sep 2022 – Jul 2024
• First PM on the team- built Jira workflow, Scrum cadence, and release process from scratch
• Led delivery across internal tools and e-commerce sites, coordinating engineering, design, and stakeholders across parallel projects with weekly/biweekly releases
• Owned delivery operations: planning, milestones, task flow, risk visibility, reporting
• Drove backlog quality: prioritization, ticket clarity, acceptance criteria, dependencies, documentation
• Recognized for consistently very good results and exemplary conduct with team, leadership, and customers

Full-Stack Developer | Lipsia Digital GmbH, Leipzig | Apr 2022 – Aug 2022
• Built and shipped web features across front and back end; collaborated with customers on scope and implementation

Production Lead | 2022 - Present
• Operational lead for complex, multi-stakeholder productions; calm, solution-oriented execution under pressure (*Goldmund Festival, Detect Classic Festival, 38C3)*
